For Israeli pre and post-doctorate to study in France

The Chateaubriand fellowships between France and Israel have existed since 1988. Young Israeli scientists, who are currently working towards a Ph.D., or who have completed their Ph.D., may qualify for a Fellowship from the French Government to conduct research in France.

French-Israeli scientists may not apply to this program. Any field of research is relevant, other than Humanities or Social Sciences.

The research will be performed at a French University, a School of Engineering or a Public Laboratory. Before applying for a fellowship, the candidates must contact the host institution to secure a position.

These scholarships are available for a period of 12 months (not renewable, not divisible and not splittable), with a monthly stipend of 1,704 Euros (Ph.D. student) or 2,055 Euros (Post-Doctorate) (2006 rates). Health insurance and a return airline ticket to Israel are also provided. The Campus France (a French public institution in charge of managing international mobility of students & researchers) will be in charge of these aspects.

The monthly allowance is payable in France and is not taxable. Grant recipients benefit, inter alia, from the same social benefits available to French students (Social Security, access to university restaurants, lodgings on campus, etc). Expenses related to possible travel within France, required for properly carrying out the work intended, may be reimbursed, subject to the prior agreement of the Ministry of Foreign Affairs.

On account of the benefits generally offered by the receiving institutions for such training or study courses, it is clearly stipulated that no subsidy shall be provided for whatsoever reason (attendance fees, charges for laboratory use, help with publication, etc).

Lastly, the return journey is paid for, subject to the candidate supplying – in advance – a report to the Ministry of Foreign Affairs regarding his/her stay in France: Scientific significance, probable future developments, comments on the

reception/hospitality, etc. This document should be sent to EGIDE (the French Center for Welcome and International Exchanges), the body that looks after the reception in France, help with the stay, administration of “Chateaubriand” grant recipients, as well as requests for transportation home.

Applications

The call for proposals “Chateaubriand 2014-2015” is open now until December, the 30th, 2013.

Please find below the application form: [Application form 2014-2015](#)

All applications must be sent by mail with the required attachments, except the reference letters which will be sent directly by the 3 referees to: d.lebowitz@ambfr-il.org

Candidates will be notified of their acceptance or rejection during the course of April 2014 in order to be able to begin the scholarship as early as October 2014.
